

Course Title	Internship Project						
Course Code	CSE418						
Course Type	Elective						
Level	Bachelor (1 <sup>st</sup> Cycle)						
Year / Semester	4 <sup>th</sup> Year / 8 <sup>th</sup> Semester						
Teacher's Name	TBA						
ECTS	6	Lectures / week	N/A	Laboratories / week	N/A		
Course Purpose and Objectives	The aim of the suggested scheme is to provide students with the opportunity to gain practical experience within an industrial environment on the implementation of a real-life computer science project.						
Learning Outcomes	<p>Upon successful completion of this course students should be able to:</p> <ul style="list-style-type: none"> <li>• Explain the process and the considerations of applying scientific knowledge within an industrial ICT environment</li> <li>• Apply the scientific knowledge gained in computer science courses to an industrial ICT case study</li> <li>• Gain experience in developing an industrial project report</li> </ul>						
Prerequisites	None		Co-requisites	None			
Course Content	An internship project in the area of Computer Science is completed by the student within the premises of a private or a public sector company, subject to faculty approval. Upon the completion of the internship project the student submits a written report describing the tasks accomplished and the satisfaction of the project's objectives. The internship project work is co-supervised by a member of DCSE (internal 'mentor') and an employee from the company within which the internship project will take place (external 'mentor').						
Teaching Methodology	Work Placement
