

Course Title	Principles of Macroeconomics				
Course Code	AED115				
Course Type	Compulsory				
Level	Bachelor (1 st Cycle)				
Year / Semester	2 nd Year / 4 th Semester				
Teacher's Name	TBA				
ECTS	6	Lectures / week	Up to 6 teleconferences	Laboratories / week	None
Course Purpose and Objectives	To equip students with knowledge and understanding of the fundamental principles and concepts of macroeconomics. To instill in students an understanding and appreciation of how the economy operates. To enable students to critically evaluate the action that policy makers undertake when the economy fails to function effectively on its own. To help students understand how any economy is linked to and affected by the rest of the world.				
Learning Outcomes	<p>Upon successful completion of this course students should be able to:</p> <ul style="list-style-type: none"> • Explain and apply the basic principles and essential concepts of macroeconomic theory. • Describe the measurement and use of national income, and demonstrate how monetary and fiscal policies may influence national income and employment. • Explain how labour market flexibility and expectations may affect an economy's response to demand and supply shocks. • Explain and illustrate the determination of macroeconomic equilibrium under fixed prices, and appraise the purpose and efficacy of macroeconomic policy. • Review theoretical explanations of aggregate consumption and investment expenditure determination, and inflation-unemployment interaction. • Discuss macroeconomic models, and be able to solve and interpret problems based on such models. • Use macroeconomic concepts and methods to analyze and interpret real-world macroeconomic phenomena, and to assess issues of macroeconomic policy. 				
Prerequisites	None		Co-requisites	None
